Form CSN - 55 Report of Blasting	Location: Station	То	Date:
1 Offit Cold - 33 Nepolt of Diasting	Prime Contractor:		
evised 8/2006	Blasting Contractor:		
roject Name:	Blaster-in-Charge:		MT. License No:
roject Number:	Blasting Consultant:		
Control Number:	Distance to nearest affecte		
se second page of form for additional sketches	Sketch showing product	ion and pre-split hole patter	n,
Production Holes	delay sequence (indicate	d numerically), free face(s) a	and trend of backslope
lumber of Holes			
lole Depth(s) (FT)			
lole Diameter (inches)			
lole Burden (FT)			
lole Spacing (FT)			
ype of Explosive(s)			
otal Quantity of Explosives (lbs)			
otal Estimated Volume (yd³)			
'' '			
ounds Explosive per yd ³			
urden Material Composition			
urden Material Unit Wt. (pcf)			
otal Tons of Burden Material			
temming Depth(s) (FT)			
ubdrill Depth (FT)			
rimer Type			
rimer Weight (lbs)			
fax. Number of Delays			
flax. Pounds Explosive/Delay			
re-split Holes			
lumber of Holes			
lole Depth (FT)			
lole Diameter (inches)			
lole Spacing (FT)			
ype of Explosive(s)			
ounds Explosive/linear foot			
temming Depth (FT)			
ubdrill Depth (FT)			
or MDT use only
